# OUR YEARLY PROJECTS

## Project 1

### Trade in crude oil

Oil trading is the buying and selling of different types of oil and oil-linked assets with the aim of making a profit. As oil is a finite resource, its price can see massive fluctuations due to supply and demand changes. This volatility makes it extremely popular among traders.

## Project 2

### Trade in properties

Trading investment properties has been popular for years because it gives investors the opportunity to upgrade or transfer their holdings to a new area. But the biggest plus is that it allows them to defer capital gains taxes, which are hefty taxes that Uncle Sam charges on the profits from investment properties when they're sold.

# OUR YEARLY PROJECTS

## Project 3 Trade in gold

Gold trading is the practice of speculating on the price of gold markets in order to make a profit - usually via futures, options, spot prices or shares and exchange-traded funds (ETFs). Usually, physical gold bars or coins are not handled during the transaction; instead they are settled in cash.

## Project 4 Spot trading

Spot FX is the purchase or sale of forex 'on the spot', which means the exchange takes place at the exact point that the trade is settled. When trading spot forex, you buy and sell the currency pair at the current market rate, known as the spot price. Forex trading is a way to speculate on international currencies without taking ownership

# OUR YEARLY PROJECTS

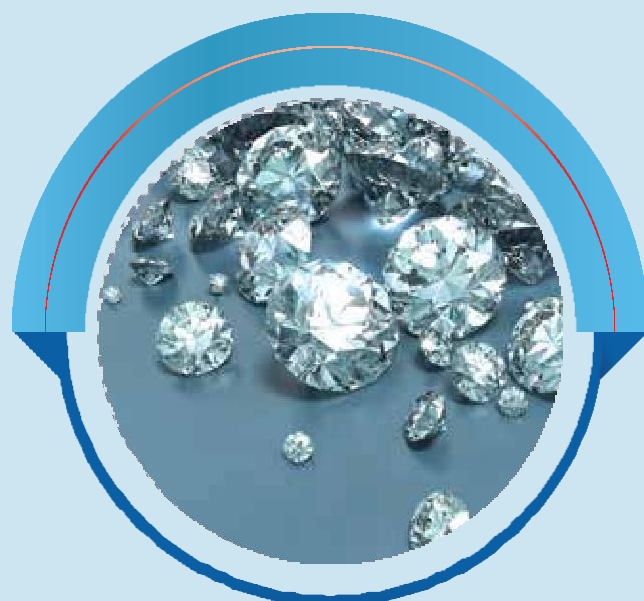

## Project 5 Youtube revenue

Our company specializes in cultivating engaged audiences for your YouTube channel, fostering a community that not only appreciates your content but actively participates in it. By harnessing the power of this engaged audience, we create a symbiotic relationship where your revenue becomes a shared success story. As your viewership and interaction grow, so does your earnings, distributed collaboratively between you and your dedicated audience, fueling a mutually beneficial journey of content creation and appreciation.

## Project 6 Trade in diamonds

At Ghory, we pride ourselves on being a trusted partner in the world of trading and investment. With our extensive expertise and strategic insights, we diligently navigate the diamond market to maximize the potential of your investments. Your hard-earned money is meticulously directed towards diamond trading, where our experienced team combines industry knowledge with analytical prowess to seek out opportunities that align with your financial goals. Rest assured, your investment is in capable hands as we strive to unlock value and growth within the fascinating realm of diamonds.

# OUR YEARLY PROJECTS

## Project 7

Ghory trading earning profits from investing in supermarkets or stores, it's essential to consider how this investment process works and what information is provided to customers. Here's a general explanation of how a company could potentially earn from investments in supermarkets or stores

**Investment Strategy:** "ghory trading" may allocate a portion of the funds they receive from customers to invest in various assets, including stocks or shares of companies that operate supermarkets or stores.

**Diversification:** By investing in different sectors, such as retail, they aim to diversify their investment portfolio, which can help manage risk.

**Earnings from Investments:** When they invest in supermarkets or stores, they become shareholders in those companies. As shareholders, they may receive dividends or capital gains when the value of the shares increases.

**Passive Income:** Dividends from supermarket or store stocks can provide a source of passive income for the company, which they can share with their customers.

**Risk Management:** Companies like "ghory trading" should have risk management strategies in place to mitigate potential losses from their investments.

**Transparency:** Transparency is crucial. "ghory trading" should provide clear and detailed information to customers about the specific investments they are making, the expected returns, and any associated risks.

**Regulation:** Depending on their location and the nature of their business, "ghory trading" may need to comply with regulatory requirements related to financial services and investments

# YOUR WORK

As you know, our investment plan is designed to help you earn daily profits. To ensure the success of your investment, here are some key steps you should follow:

## Daily Website Visits:

We recommend visiting our website daily to stay updated on the latest news, updates, and investment information.

Logging in regularly will allow you to track your earnings and monitor your progress.

## Watch YouTube Videos:

We provide educational and informative YouTube videos and you must have to watch that.

## Active Participation:

Your active participation is crucial for maximizing your returns. By staying engaged with our platform, you'll be well-informed about your investments.

## Contact Us:

If you have any questions or need assistance, our customer support team is here to help. Feel free to reach out via email or phone whenever you need assistance.

Work diligently, earn consistently, and watch your daily efforts turn into a lifetime of success by Ghory trading."

# WITHDRAWAL

Ghory trading has a minimum withdrawal limit of \$20, meaning that customers cannot withdraw an amount less than \$20. Additionally, the withdrawal requests are processed or payment is released after a waiting period of 24 hours.

This policy is likely in place for administrative and operational reasons. Having a minimum withdrawal amount can help reduce transaction costs and administrative overhead associated with processing small withdrawals. The 24-hour waiting period may serve various purposes, including fraud prevention, security checks, and allowing customers to reconsider their withdrawal request before it is finalized.

If you have further questions or concerns about this withdrawal policy, it's advisable to contact the company's customer support for clarification and to understand their specific terms and conditions regarding withdrawals. It's always important to review and understand a company's policies before engaging in any financial transactions with them.

# READ CAREFULLY

**Initial Investment:** Customers who join with an initial investment of \$100.

**Earnings:** After one year, customers receive monthly earnings of \$20.

## Capital Return In First Five Months:

It appears that the initial investment amount of \$100 will not be returned to the customer. Instead, the customer is earning a monthly income from their investment.

This type of investment program suggests that customers are essentially earning a monthly income of \$20 from their \$100 investment, with the capital remaining invested with the company. It's important to note that investment programs like this often carry risks, and it's crucial to thoroughly research and understand the terms and conditions of such programs before participating.

Additionally, it's advisable to exercise caution when dealing with investment opportunities, especially if the company is not well-known or regulated. Make sure to verify the legitimacy and credibility of the company, and consider seeking advice from a financial advisor or conducting due diligence before investing your money. Investments always carry some level of risk, and it's essential to make informed decisions.

There will be a withdrawal charge of 5% for each withdrawal

We understand that small transactions can be necessary at times, but the processing costs for such transactions are relatively high. To continue providing you with a convenient and secure withdrawal experience, we have introduced this minimal charge for transactions.
